2018 Hazard Mitigation Planning
Meeting #1
Agenda

1) Review previous stakeholder lists/Establish 2018/19 Stakeholder contact list
2) Review Process, Tasks and Timelines/Develop engagement strategy
3) Review Survey Questionnaire/Procedure/Timeline
4) Review 2014 Plan/Review - Update 2019 Plan Table of Contents
Eastern U.P. Regional Planning & Development Commission

Natural Hazards Mitigation Web Page

What is Hazard Mitigation?

The Federal Emergency Management Agency (FEMA) defines hazard mitigation as "any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. This definition distinguishes actions that have a long-term impact from those that are more closely associated with immediate preparedness, response, and recovery activities. Hazard mitigation is the only phase of emergency management specifically dedicated to breaking the cycle of damage, reconstruction, and repeated damage."

Give us your input on natural hazards in your area. Click the appropriate County link below.

RESIDENTS BEING ASKED TO PARTICIPATE IN ONLINE SURVEY THAT WILL HELP WHEN DEALING WITH NATURAL HAZARDS

Has your home ever been flooded or have you experienced a prolonged power outage? Or have you been affected by any other type of natural disaster? Luce County residents can now learn more about and provide input on a comprehensive natural hazard mitigation plan for the county and its local municipalities. An online citizen questionnaire and interactive map at www.eup-planning.org have been provided to help gather public input.

Through a grant, provided by the Federal Emergency Management Agency (FEMA), the EUP Regional Planning & Development Commission will work with county emergency management staff and municipal representatives to update the 2014 Luce County Natural Hazards Mitigation Plan. The plan is a documented evaluation of the hazards to which a community is susceptible and the extent to which these events will occur.

Background information about the Plan and planning process is available on the EUPRP&DC’s website. Residents are being encouraged to participate with providing information that will help a study team better assess the nature, extent and probability of various hazards in Luce County. Contact Ellen Benoit toll free at 1-855-885-3690 for more information or a printed copy of the survey.

RE: 5-Year Update of Luce County Natural Hazards Mitigation Plan

Severe winter weather, straight-line winds, wildfires, flooding and droughts are the kinds of natural disasters most likely to cause widespread economic loss and personal hardship in Luce County. Taking steps to minimize the damage from a natural disaster is key to the multi-hazard mitigation plan (HMP).

The Eastern U.P. Regional Planning & Development Commission is working with the County’s Office of Emergency Management to update Luce County’s plan.

Understanding the natural hazards that can cause serious impact to our communities and taking action to reduce or eliminate the impact of future disasters makes us more resilient. Hazard mitigation helps us to break the cycle of damage and repair caused by things like flooding, ice storms, and severe wind events that can damage property, stress economies, and threaten life safety in our region.

Examples of hazard mitigation strategies include local planning and regulations such as zoning, building codes and enforcement; structural and infrastructure such as retrofitting or relocation of buildings; restoration of the natural environment; or education and awareness such as early warning systems or educational workshops.

Nobody knows their community better than the ones that live there. To tap into that local knowledge, a community input session has been scheduled for Thursday, June 13, 2019 at the Luce County Emergency Services Building, 910 Washington Blvd., Newberry, Michigan from 5-7 PM. Snacks and refreshments will be provided.

If you have any questions or need more information, please contact Ellen Benoit at (906) 635-1581 or ellen@eup-planning.org.

EUPRP&DC Announces

What: Luce County Natural Hazards Mitigation Planning Update
Public Information Session

When: Thursday, June 13, 2019 5PM – 7 PM Luce County EMS Building

The Luce County Emergency Management and Eastern U.P. Regional Planning & Development Commission invite you to attend a public input session on Thursday, June 13, 2019 from 5 – 7 PM at the Luce County EMS Building, 910 Washington Blvd., Newberry, Michigan. The purpose of the input session is to discuss the natural hazards that can cause serious impact to our communities and consider strategies to reduce or eliminate the impact of future disasters events.

Examples of hazard mitigation strategies include improvements to roads and culverts that experience repetitive flooding; living snow fences; construction of safe rooms at campgrounds, parks, mobile home parks or schools to protect lives in the event of tornadoes or severe wind events; burying power lines that may fail due to heavy snow, ice or wind storms; ensuring timely emergency communication to the public through warning sirens and mass notification systems, and conducting public awareness and education campaigns to help people to be prepared to take safe action before, during, or following a hazard event. Strategies can also include policy and regulations and are encouraged to be integrated into comprehensive, master plans and zoning documents.

As part of the planning process, Luce County is seeking feedback from residents and businesses from across the County to incorporate into the plan:

- What are the natural hazards you feel pose the greatest risk to your community?
- Have you experienced a previous disaster event?
- What concerns do you have, and what sorts of mitigation actions or projects do you feel would help to reduce the damages of potential future events for your personal property, your community, or the County as a whole?

Comments, concerns, or questions regarding natural disasters and potential mitigation actions to be included into the plan update process can also be submitted directly to Eastern U.P. Regional Planning & Development Commission HMP Coordinator, Ellen Benoit at (906) 635-1581 or ellen@eup-planning.org.
Notice of Public Meeting

5:00-7:00 PM Thursday, June 13, 2019

Luce County EMS Building

910 Washington Blvd., Newberry, Michigan

Notice is hereby given for a public input session to be held on Thursday, June 13, 2019 from 5 PM to 7 PM at the Luce County EMS Building. The purpose of this meeting is to gather public input in the development of the 5-Year Update of the Luce County Natural Hazards Mitigation Plan. The Luce County Office of Emergency Services and EUP Regional Planning and Development are offering an opportunity for the public to attend this informational meeting where residents and stakeholders can learn about the plan, ask questions, and provide input.

Countywide Multi-Hazard Mitigation Plan Now Open for Comment

Plan Outlines how County & Local Jurisdictions Prepare to Avoid Loss of Life, Property

A coordinated planning effort for hazard mitigation was conducted for Luce County jurisdictions, in accordance with the Disaster Mitigation Act of 2000 (DMA2K). The Act requires all local, county, tribal and state governments to have an approved Federal Emergency Management Agency (FEMA) hazard mitigation plan in order to be eligible for federal disaster mitigation grant funding. The plan focuses on the most threatening hazards throughout Luce County and provides a strategy to reduce or eliminate the risk to people and property from those hazards.

Mitigation is not responding to emergencies like floods and wildfires, but rather is a jurisdiction’s strategy for preventing or significantly reducing the impact of such hazards prior to their occurrence. The mitigation planning process involves identifying and profiling natural hazards that will most likely occur in a community, as well as assessing the vulnerability of critical community facilities and structures. The plan will also help community leaders to evaluate risk hazards to our population, and establish goals, actions and projects that help mitigate the associated risks.

Public input on the final draft of the plan is important, and residents are highly encouraged to review the plan and offer comments. The formal comment period will close on October 30, 2019 with a public hearing scheduled for Monday, November 4, 2019, 5:00 PM, Luce County Office of Emergency Services, 5523 CR 399, Newberry, Michigan.

The draft plan may be viewed or downloaded from EUP Regional Planning & Development’s hazard mitigation web-page at:

http://www.eup-planning.org/natural-hazards-mitigation-planning

Hard copies of the plan can be viewed at the following locations during regular hours of operation: Luce County Government Building Clerk’s office and the Tahquamenon Area Library.

You may also email comments to ellen@eup-planning.org or send comments to EUP Regional Planning, 1118 E. Easterday Ave., Sault Ste. Marie, MI 49783.
Notice of Public Hearing
5:00 PM Monday, November 4, 2019
Luce County Office of Emergency Services
5523 CR 399
Newberry, Michigan

Notice is hereby given for a public hearing to be held on Monday, November 4, 2019, 5:00 PM at the Luce County Office of Emergency Services, 5523 CR 399, Newberry, Michigan. The purpose of the public hearing is to accept public comments on the 2019 Luce County Natural Hazards Mitigation Plan. The Plan can be viewed on-line at http://www.eup-planning.org/natural-hazards-mitigation-planning. The Plan is also available for viewing in hard copy form at the Tahquamenon Area Library and the Luce County Clerk office during their regular business hours.

Questions or comments should be directed to Ellen Benoit at EUP Regional Planning by phone at 906.635.1581 or by email at ellen@eup-planning.org.
Michigan’s Wetland Wonders offer first class waterfowl hunting and wildlife viewing opportunities. Use the Wetland Wonders locator to find a managed waterfowl hunting area to explore.

Again this year, Consumer’s Energy and the Michigan United Conservation Clubs have partnered with the DNR to hold an annual contest for hunters—the Wetland Wonders Challenge. From October 12 through February 10, 2020, you can explore, hunt and win with the Wetland Wonders Challenge. To enter, just visit three of the official Wetland Wonders Challenge sites and fill out an entry form. Visit four or more sites and receive a bonus entry into the contest for each site visited.

Goose Seasons

Canada geese, white-fronted geese (or specklebelies) and brant are part of a dark goose aggregate daily bag limit. After September 30, the daily limit for dark geese is five, only three of which may be Canada geese.

The Newberry Area Ambassadors traipsed over to Main Street Floral Wednesday, September 25 to congratulate the new owner, Mellisa Hinkson, on her blooming business. Main Street Floral boasts flowers, gifts, gift baskets and clothes, and offers delivery, funeral and wedding service. They are located at 1011 Newberry Avenue and are open Monday–Friday from 9:00 a.m. – 5:00 p.m. and Saturday 9:00 a.m. – 1:00 p.m. They can be reached at (906) 293-5101 or by visiting mainstreetfloralgifts.com. Pictured above, in no particular order, are manager Sara Schultz, staff Lisa Brown and Peggy Salgat and ambassadors Bernadette Derusha, Ryan Magnusson, Chris Ison, Angie Harris, Marilyn Atterton and Jill Anderson (taking photo).

Countywide Multi-Hazard Mitigation Plan Now Open for Comment

A coordinated planning effort for hazard mitigation recently was conducted for Luce County jurisdictions, in accordance with the Disaster Mitigation Act of 2000 (DMA2K). The Act requires all local, county, tribal and state governments to have an approved Federal Emergency Management Agency (FEMA) hazard mitigation plan in order to be eligible for federal disaster mitigation grant funding.

The plan focuses on reducing the most threatening hazards throughout Luce County and provides a strategy to reduce or eliminate the risk to people and property from those hazards.

Mitigation is not responding to emergencies like floods and wildfires, but rather a jurisdiction’s strategy for preventing or significantly reducing the impact of such hazards prior to their occurrence.

The mitigation planning process involves identifying and profiling natural hazards that will most likely occur in a community, as well as assessing the vulnerability of critical community facilities and structures. The plan also will help community leaders to evaluate risk hazards to the local population and establish goals, actions, and projects that help mitigate the associated risks.

Public input on the final draft of the plan is important, and residents are highly encouraged to review the plan and offer comments. The formal comment period will close October 30, with a public hearing scheduled for Monday, November 4 at 5:00 p.m. at the Luce County Office of Emergency Services, 5523 CR 399, Newberry.
